Serving one in five Medicare beneficiaries, UnitedHealthcare Medicare & Retirement is the largest business dedicated to the health and well-being needs of seniors and other Medicare beneficiaries. For four decades, UnitedHealthcare has served the health care coverage needs of Medicare beneficiaries, navigating through multiple evolutions of the Medicare program and growing to become the preferred choice of more beneficiaries than any other company. Today we remain committed to providing people with a **choice** of innovative health and well-being solutions that help them access the quality **care** they need and enjoy the superior **experience** they deserve.

CHOICE

Medicare is not one size fits all, which is why we offer a variety of smart, affordable plan options that feature enhanced benefits, broad networks and predictable out-of-pocket costs so people can find the plan that's right for them.

CARE

Regardless of our members' health status or unique health needs, we're committed to helping them live happier, healthier lives and design our Medicare plans, clinical programs and networks to support that goal.

EXPERIENCE

Medicare can be complex and confusing. We work to make it as easy as possible for people to navigate the options to find the plan that works best for them and then support them throughout their health care journey with plan benefits, features and resources that can help them live more and worry less.
