

PreCheck MyScript Member Benefit

UnitedHealthcare logo

PreCheck MyScript from UnitedHealthcare helps make it simpler for patients to get a prescription.

Before ever leaving the doctor's office, the patient will know:
if the benefits plan covers the medication...
how much it'll cost at the pharmacy...
and if there's a less expensive option available.

Plus, no more waiting for prior authorizations.

It helps the patient save time and money.

PreCheck MyScript from UnitedHealthcare.

Shouldn't all health care be simple?
